3. Is there any discount available for the distance learning programs?

We do not offer a discount. We want to keep the cost of the programs as low as possible for all members.

4. Are your training and certification programs vendor neutral?

Yes. We do not promote any products or services, and we are 100% independent.

5. I want to learn more about the exam.

You can take the exam online from your home or office, in all countries.

It is an open book exam. Risk and compliance management is something you must understand and learn, not memorize. You must acquire knowledge and skills, not commit something to memory.

You will be given 90 minutes to complete a 35-question exam. You must score 70% or higher.

The exam contains only questions that have been clearly answered in the official presentations.

All exam questions are multiple-choice, composed of two parts:

- a. A stem (a question asked, or an incomplete statement to be completed).
- b. Four possible responses.

In multiple-choice questions, you must not look for a correct answer, you must look for the *best* answer. Cross out all the answers you know are incorrect, then focus on the remaining ones. Which is the best answer? With this approach, you save time, and you greatly increase the likelihood of selecting the correct answer.

TIME LIMIT - This exam has a 90-minute time limit. You *must complete* this exam within this time limit, otherwise the result will be marked as an unsuccessful attempt.

BACK BUTTON - When taking this exam you are NOT permitted to move backwards to review/change prior answers. Your browser back button will refresh the current page instead of moving backward.

RESTART/RESUME – You CANNOT stop and then resume the exam. If you stop taking this exam by closing your browser, your answers will be lost, and the result will be marked as an unsuccessful attempt.

SKIP - You CANNOT skip answering questions while taking this exam. You must answer all the questions in the order the questions are presented.

We do not send sample questions or past exams. If you study the presentations, you can score 100%.

When you are ready for the online exam, please follow the steps:
https://www.hedge-funds-association.com/CHFCE_Certification_Steps_1.pdf

6. How comprehensive are the presentations? Are they just bullet points?

The presentations are not bullet points. They are effective and appropriate to study online or offline.

7. Do I need to buy books to pass the exam?

No. If you study the presentations, you can pass the exam. All the exam questions are clearly answered in the presentations. If you fail the first time, you must study more. Print the presentations and use Post-it to attach notes, to know where to find the answer to a question.

8. Is it an open book exam? Why?

Yes, it is an open book exam. Risk and compliance management is something you must understand and learn, not memorize. You must acquire knowledge and skills, not commit something to memory.

9. Do I have to take the exam soon after receiving the presentations?

No. You can take the exam any time. Your account never expires.

10. Do I have to spend more money in the future to remain certified?

No. Your certificates never expire. They will be valid, without the need to spend money or to take another exam in the future.

11. Ok, the certificates never expire, but things change.

Recertification would be a great recurring revenue stream for the association, but it would also be a recurring expense for our members. We resisted the temptation to “introduce multiple recurring revenue streams to keep business flowing”, as we were consulted. No recertification is needed for our programs.

Things change, and this is the reason you need to become (at no cost) a member of the association. Every month you can visit the “Reading Room” of the association and read our newsletter with updates, alerts, and opportunities, to stay current.
